

VIVEK KUMAR RANA

MERN Stack Developer | React.js Frontend Developer | Node.js & Express.js

Kharadi, Pune | +91 93047-18075 | vivekranaworks@gmail.com | github.com/realvivekrana | linkedin.com/in/mrvivekrana

PROFESSIONAL SUMMARY

Frontend-focused MERN Stack Developer with hands-on experience building, deploying, and maintaining 4+ responsive, component-based web applications using React.js, JavaScript (ES6+), Tailwind CSS, and RESTful APIs. Trained across the full MERN stack (MongoDB, Express.js, React.js, Node.js) with practical exposure to CRUD operations, schema design, and API integration. Strong foundation in reusable component architecture, state management (Hooks, Redux Toolkit, Context API), responsive UI/UX, cloud deployment (Vercel, Netlify), and Git-based Agile collaboration, backed by strong communication and teamwork skills. Actively seeking a fresher/entry-level MERN Stack or React.js Developer role to deliver production-grade, scalable web applications.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), basics of TypeScript

Frontend: React.js (Hooks, Props, Context API, Component Architecture, Conditional Rendering), Redux Toolkit, Tailwind CSS, Bootstrap, Responsive Web Design, Flexbox & Grid

Backend: Node.js, Express.js, MongoDB, Mongoose (Schema Design), RESTful API Design & Integration, CRUD Operations

Tools & Practices: Git, GitHub, VS Code, Postman, npm, Vercel, Netlify, Agile/Scrum, Cross-Browser Compatibility, Debugging, Code Review, Version Control

Soft Skills: Communication, Problem-Solving, Teamwork, Collaboration

AI-Assisted Development: ChatGPT, Claude (code assistance, debugging & problem-solving)

WORK EXPERIENCE

Frontend Developer Intern — Athenura

Feb 2026 – May 2026

- Built and deployed 4 responsive, production-grade web applications — a Lead Management System, Restaurant Application, School Website, and Music Portal App — using React.js, Tailwind CSS, and JavaScript.
- Designed and developed 15+ reusable UI components, cutting duplicate code and speeding up feature delivery across projects.
- Collaborated with backend developers to integrate REST APIs, enabling real-time rendering of dynamic data across all 4 applications.
- Implemented mobile-first, responsive UI/UX design, ensuring consistent functionality across desktop, tablet, and mobile breakpoints.
- Debugged and resolved 20+ frontend issues across components, improving application stability and overall user experience.

MERN Stack Developer Trainee — CETPA Infotech Pvt. Ltd.

Apr 2025 – Sep 2025

- Completed structured MERN Stack training (6 months) covering MongoDB, Express.js, React.js, and Node.js fundamentals.
- Built full-stack practice applications connecting React.js frontends to Express/Node.js backends with MongoDB for persistent data storage.
- Gained hands-on experience with backend routing, server-side logic, and CRUD operations using Node.js and Express.js.
- Practiced building responsive, component-based frontend interfaces using React.js and modern JavaScript (ES6+).

PROJECTS

AdminSuite Pro — React Admin Dashboard —

Mar 2026 – Apr 2026

- Built a scalable admin dashboard with 3 core modules — user management, analytics, and system data — using reusable React components.
- Implemented interactive charts and data visualizations, enabling faster, data-driven decision-making for end users.
- Ensured a fully responsive layout, tested across desktop, tablet, and mobile breakpoints for consistent cross-device experience.

Tech Stack: React.js, Tailwind CSS, REST API, Chart Library — Deployed on Vercel

Sunny Skies — Weather Application —

Jan 2026 – Feb 2026

- Developed a real-time weather app displaying live temperature, humidity, and conditions via a public Weather API based on user location or search.
- Designed a clean, intuitive UI focused on quick readability and smooth navigation, reducing clicks needed to find key information.

Tech Stack: React.js, JavaScript, Weather API, CSS — Deployed on Netlify

ChatMate — AI Chat Assistant —

Jan 2026

- Built an interactive AI chat assistant interface with dynamic, real-time message rendering and smooth UX.
- Integrated an API-based response system to handle and display user queries efficiently with minimal latency.

Tech Stack: React.js, JavaScript, REST API, CSS

EDUCATION

Master of Computer Applications (AI & ML) — Amity University, Noida (Online)

Jul 2024 – May 2026

CGPA: 7.67/10

Bachelor of Computer Applications — Vinoba Bhave University, Jharkhand

Jul 2021 – May 2024

CGPA: 6.86/10

CERTIFICATIONS

- MERN Full Stack Developer Training — CETPA Infotech Pvt. Ltd.
- Professional & Life Skills Certificate Course
- Fundamentals of AI Certificate Course

Languages: English, Hindi
